OVC FY 2020 Enhancing Community Responses to America's Addiction Crisis: Serving Our Youngest Crime Victims CFDA # 16.582

A. Program Description

Overview

This program will provide funding to support (1) direct services to children and youth who are crime victims as a result of the Nation's addiction crisis; and (2) training and technical assistance for the direct services grantees.

Statutory Authority: This project is authorized by 34 U.S.C. § 20103(c)(1)(A).

Program-Specific Information

Under this program, a young victim of the addiction crisis is—

- a child or youth, from newborn to 18 years old;
- a victim of any type of crime¹ (e.g., child abuse or neglect, physical or sexual assault, domestic or family violence, DUI or DWI); and
- impacted by the current addiction crisis (i.e., opioids, methamphetamines, other misused substances, and polysubstance abuse).

Under this program, direct services² refer to activities such as—

- providing information about services for young victims impacted by addiction;
- referral to specialized, evidence-based, trauma-informed victim services for children and youth;
- personal advocacy on behalf of a victim;
- accompaniment to meetings, hearings, and appointments;
- medical services including treatment for neonatal abstinence syndrome; and
- emotional support on-scene of a substance overdose or drug-related offense where a young victim is present, as well as continued support after the incident, such as mental health treatment including individual counseling, support groups, and other types of therapy.

Under Purpose Area 1, direct service grantees will support children, youth, and their caregivers—either directly or through a partner—with ongoing services such as mental health treatment, including individual counseling and other types of therapy; advocacy; trauma-informed treatment; support groups; and case management. Grantees will build a seamless response to children and families, from identification and initial response to ongoing support services and interventions to longer term follow-up. Purpose Area 1 grantees will work in partnership with local community-based victim service agencies and agencies dedicated to

¹ A crime does not have to be reported to police for a child or youth to be eligible to receive services through this program. A more exhaustive list of types of crime victimization can be found on page 18 of the [OVC PMT Questionnaire](#).

² More examples of direct services can be found on pages 19–22 of the [OVC PMT Questionnaire](#).

substance abuse treatment and recovery so that grantees may refer family members or caregivers to addiction treatment and recovery services that are not provided through this grant (e.g., substance abuse treatment, housing, legal services). Children and youth will be eligible for services in this program regardless of their caregiver's acceptance of services targeted for caregivers.

Under Purpose Area 2: Training and Technical Assistance (TTA), the TTA provider will assist direct service grantees with successful program implementation. The Purpose Area 2 grantee will work in partnership with OVC and other organizations to provide national-scope expertise and support in the areas of victim services and programs that support young victims impacted by addiction.

Mandatory Program Requirements

Grantees will be required to complete the following:

1. Submit to OVC the policies and procedures guiding the provision of direct services to young victims and their families, including maintaining confidentiality, protecting personally identifiable information, and ensuring staff suitability to work with minors (post-award).
2. Ensure that any staff, partner staff, or service providers working with young victims are trained to work with children and youth affected by crime victimization and substance abuse (particularly of a parent or caregiver).
3. Ensure the project coordinator and other key staff participate in required teleconference and in-person trainings with OVC, other grantees, and the OVC TTA provider.
4. Provide direct services to children and youth without requiring their parent/caregiver's participation in treatment and services.

Goal, Objectives, and Deliverables

The primary goal of this program is to provide direct services and support to children and youth who are crime victims as a result of the addiction crisis.

Under Purpose Area 1, program objectives are to—

- 1) increase the quality and quantity of direct services, including treatment for infants suffering from neonatal abstinence syndrome, and support to children, youth, and their caregivers;
- 2) provide assistance or referrals to other essential services for young victims and their families/caregivers;
- 3) collaborate with and provide training to local partners;
- 4) improve outcomes for child and youth victims, depending on types of services provided (e.g., health and wellbeing, family stability, school outcomes); and
- 5) use local data sources to identify and address the most pressing local needs.

Under Purpose Area 2 objectives are to—

- 1) deliver technical assistance to ensure that quality services are provided to children, youth, and their caregivers;
- 2) offer support to identify and provide other types of assistance, essential services, and referral sources for young victims and their families and caregivers;
- 3) aid effective collaboration with, and provide training for, local partners;
- 4) assist direct service grantees with documenting improved outcomes for victims;

- 5) help with data collection, reporting, and use of local data sources to target the most current and pressing local needs; and
- 6) regularly share promising practices and lessons learned with all funded grantees and the general public.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under [What an Application Should Include](#).

Limit Use of Funds

Funding authorizations for this program limit allowable expenses to those associated with serving crime victims. Examples include programs and services that provide awareness about victimization and the resources available to victims, direct services that provide for the needs of crime victims, and support to navigate the complex systems often associated with victimization (e.g., criminal justice, child welfare). **Primary prevention programs (i.e., an intervention provided before a victimization has occurred) are generally not permissible, but may be considered if provided within the scope of victim services.**

OJP Priority Areas

In FY 2020, and in addition to executing any statutory prioritization that may be applicable, OJP will give priority consideration to applications as follows:

- Applications that address specific challenges that rural communities face.
- Applications that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties.
- Applications that offer enhancements to public safety in economically distressed communities (Qualified Opportunity Zones).

To receive priority consideration under the rural priority, applicants must describe what makes the geographic service area rural (using U.S. Census or other appropriate government data; for assistance, applicants may wish to refer to <https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural.html>), how isolated the area is from needed services, and how they will address specific challenges in rural communities.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term “persistent poverty counties” means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

To receive priority consideration under the Qualified Opportunity Zones priority, applicants must include information that specifies how the project will enhance public safety in the specified QOZs. For resources on QOZs, and for a current list of designated QOZs, see the U.S.

Department of the Treasury’s resource webpage, accessible at <https://www.cdfifund.gov/pages/opportunity-zones.aspx>.

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policy making and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

Applicants should note OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section, entitled, “Information Regarding Potential Evaluation of Programs and Activities.”

Each applicant proposing to receive priority consideration under the rural priority should provide a sufficient narrative to include what makes the geographic service area rural (using U.S. Census or other appropriate government data), how isolated the area is from needed services, and how the applicant will address specific challenges in rural communities.
- b. **Documentation of High-Poverty Areas or Persistent Poverty Counties** (if applicable)
As mentioned above, OJP will give priority consideration in award decisions to applications that demonstrate that the individuals who will benefit from the requested grant reside in high-poverty areas or persistent poverty counties as defined above.

⁵ Generally speaking, a reasonable cost is a cost that, in its nature or amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs.

⁶ A "DOJ High Risk Grantee" is a recipient that has received a DOJ High Risk designation based on a documented history of unsatisfactory performance, financial instability, management system or other internal control deficiencies, or noncompliance with award terms and conditions on prior awards, or that is otherwise not responsible.

Each applicant proposing to receive consideration under the High-Poverty Areas or Persistent Poverty Counties priority should provide a sufficient narrative explanation to identify each specific High-Poverty Area (by census tract number(s)) and/or each specific Persistent Poverty County where individuals are intended to benefit from the requested grant and how the requested grant will address specific challenges in each such identified area and/or county.

c. **Documentation of Enhanced Public Safety in Qualified Opportunity Zones** (if applicable)

As is mentioned above, OJP will give priority consideration in award decisions to designated Qualified Opportunity Zones (QOZ). Each applicant proposing to receive priority consideration under the under the Qualified Opportunity Zones priority should provide a sufficient narrative explanation in order for OJP to identify clearly the public safety benefit the applicant anticipates that its project will have on a specified QOZ(s). The narrative and the list of affected QOZs (by census tract number) must be included as an attachment that is clearly labeled as addressing QOZs. The applicant may also include tables, charts, graphs, or other relevant illustrations that may be useful in comprehending the manner in which the proposed project is anticipated to benefit a QOZ(s).

How To Apply (Grants.gov)

Applicants must register in and submit applications through [Grants.gov](https://www.grants.gov), a primary source to find federal funding opportunities and apply for funding. Find information on how to apply in response to this solicitation under “How to Apply (Grants.gov)” in the [OJP Grant Application Resource Guide](#).

Registration and Submission Steps

Applicants will need the following identifying information when searching for the funding opportunity on Grants.gov:

- 16.582, Federal Direct Services, Training, and Technical Assistance
 - OVC-2020-17912
- Select the correct Competition ID. Some OJP solicitations posted to Grants.gov contain multiple purpose areas, denoted by the individual Competition ID. If applying to a solicitation with multiple Competition IDs, select the appropriate Competition ID for the intended purpose area of the application.
- Competition ID for Purpose Area 1: (OVC-2020-17917) – Direct Services
 - Competition ID for Purpose Area 2: (OVC-2020-17918) – Training and Technical Assistance (TTA) Provider

For information on each registration and submission step, see the [OJP Grant Application Resource Guide](#).

E. Application Review Information

Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers using the following review criteria.

1. Statement of the Problem (20%)
2. Project Design and Implementation Plan (45%)

3. Capabilities and Competencies (20%)
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (5%)
5. Budget (10%): complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities). Budget narratives should demonstrate generally how applicants will maximize cost effectiveness of grant expenditures. Budget narratives should demonstrate cost effectiveness in relation to potential alternatives and the goals of the project.⁷

Review Process

OVC reviews the application to make sure that the information presented is reasonable, understandable, measurable, achievable, and consistent with the solicitation.

The following five paragraphs in this solicitation expressly modify the "Application Review Information" provisions in the OJP Grant Application Resource Guide. An applicant is to follow the guidance in these five paragraphs instead of the guidance stated under the "Application Review Information" heading in the guide.

Peer reviewers will review the applications submitted under this solicitation that meet basic minimum requirements. For purposes of assessing whether an application meets basic minimum requirements and should proceed to further consideration, OJP screens applications for compliance with those requirements. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

For a list of the application elements that **MUST** be included in the application submission in order for an application to meet the basic minimum requirements, see "[What an Application Should Include](#)" under Section D. Application and Submission Information.

Peer review panels will evaluate, score, and rate applications that meet basic minimum requirements. OVC may use internal peer reviewers, external peer reviewers, or a combination, to assess applications on technical merit using the solicitation's review criteria. An internal reviewer is a current DOJ employee who is well-versed or has expertise in the subject matter of this solicitation. An external peer reviewer is an expert in the subject matter of a given solicitation who is not a current DOJ employee. Peer reviewers' ratings and any resulting recommendations are advisory only, but are considered carefully.

Other important considerations for OVC include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to addressing specific challenges that rural communities face, high-poverty areas or persistent poverty counties, and demonstrable potential enhancement to public safety in one or more federally designated QOZs), available funding, and the extent to which the Budget Detail Worksheet and Budget

⁷ Generally speaking, a reasonable cost is a cost that, in its nature or amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs.

Narrative accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, at its option, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and OVC recommendations, but also other factors as indicated in this section.
