Program Description

Overview

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Juvenile Justice System Reform Initiative will support states to implement sustainable, research-based, and data-informed recidivism-reduction policies, practices, and programming, and the strategic reinvestment of cost savings into effective prevention and intervention programs.

Statutory Authority

Department of Justice Appropriations Act, 2021, Pub. L. No. 116-260, 134 Stat. 1182, 1260

Specific Information

The Juvenile Justice System Reform Initiative employs approaches to juvenile justice which recognize that every justice agency has a role to play in preventing crime, holding youth accountable for wrongdoing, preventing further offending, and treating youth fairly, while ensuring efficient and effective court and pretrial decision-making, facilitating appropriate sentencing and treatment, implementing strategies to reduce recidivism, and ensuring public safety. This program will provide funding to support states to develop, implement, and test innovative and research-based responses to crime and other public safety and community challenges, as identified through data analysis. Challenges may include chronic crime problems, emerging crime problems, or barriers to juvenile justice agencies' ability to address such problems, including those related to juvenile arrest, detention, referral to court, diversion, adjudication, disposition to probation, out-of-home-placement, other sanctions or services, and aftercare, or lack of information sharing or technology integration within the juvenile justice system.

This solicitation provides funding for two categories—Category 1: Juvenile Justice System Reform Grants and Category 2: Juvenile Justice System Reform Initiative Training and Technical Assistance.

Goals, Objectives, Deliverables, and Timeline

Category 1: Juvenile Justice System Reform Grants

Goals

The goal of Category 1 is to support states to develop and implement sustainable, research-based, and data-informed recidivism-reduction policies, practices, and programming, and the strategic reinvestment of cost savings into effective prevention and intervention programs. Research indicates that juvenile justice systems should put more emphasis on encouraging offender accountability through restorative justice, engaging in community service, and helping youth take responsibility and make amends for their actions. Juvenile justice systems should help prevent reoffending through structured risk and needs assessments and using interventions rooted in knowledge about adolescent development (see *National Research Council 2013. Reforming Juvenile Justice: A Developmental Approach. Washington, DC: The National Academies Press. <https://doi.org/10.17226/14685>*). States should identify their own priorities for juvenile justice system reform within the justice reinvestment framework. Grant activities may focus on reducing trial delays, ensuring speedy bond consideration, guaranteeing that a juvenile's ability to pay is considered in setting any bond amount, providing mental health and trauma-informed services for youth who are incarcerated, and helping to ensure ending the use of solitary confinement for youth, among other reforms.

Objectives

Objectives include (1) engaging stakeholders, (2) analyzing data and identifying drivers, (3) developing innovative or research-based responses, (4) implementing responses, and (5) measuring outcomes.

Deliverables

Deliverables include the implementation of policies, practices, and/or programs that support juvenile justice system reform, recidivism, and crime reduction. A final report summarizing the changes made and preliminary outcomes must be submitted at the conclusion of the grant period.

Category 2: Juvenile Justice System Reform Initiative Training and Technical Assistance

Goals

The goal of Category 2 is to support a training and technical assistance (TTA) provider to assist up to seven selected states under Category 1 and states that have recently (within the past 2 years) enacted policy changes intended to reform the state's juvenile justice system and are seeking TTA that focuses on implementing juvenile justice reforms. Additionally, states that are not OJJDP awardees will have to demonstrate that they meet the aforementioned requirement in order to receive training and technical assistance.

Objectives

Objectives include developing, implementing, and disseminating TTA based on best practices for (1) engaging stakeholders, (2) analyzing data and identifying drivers, (3) developing innovative or research-based responses, (4) implementing responses, and (5) measuring outcomes.

Deliverables

Deliverables include providing TTA to states related to stakeholder engagement, data analysis, policy development, planning and implementation guidance, and supporting sustainability.

The TTA provider will be expected to work closely with the states funded by OJJDP in order to help them implement their project, achieve project goals, and meet project deliverables. The TTA provider will provide support to sites to develop an implementation plan, assist sites in executing it, and develop sustainability plans before the end of the sites' award period. OJJDP may also ask the TTA provider to provide training to the field, prioritizing jurisdictions engaged in juvenile justice system reform, as well as participate in group interactions at conferences or workshops, peer-to-peer consultations, distance learning, and/or web-based assistance.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed as discussed under Application and Submission Information.

OJJDP Training and Technical Assistance Awardee Standards

OJJDP has developed the Core Performance Standards for Training, Technical Assistance, and Evaluation to promote among providers the consistency and quality of OJJDP-sponsored training and technical assistance and to advance common expectations of performance excellence. The standards present minimum expectations that providers must meet for effective practice in the planning, coordination, delivery, and evaluation of training.

Requirements related to coordination of activities will include, but are not limited to:

- **Coordination with OJJDP NTTAC.** OJJDP requires all training and technical assistance projects to coordinate their activities with the OJJDP National Training and Technical Assistance Center (NTTAC) by complying with all OJJDP/NTTAC protocols to ensure coordinated delivery of services among providers and the effective use of OJJDP grant funding. OJJDP reserves the right to modify these protocols at any time with reasonable notice to the grantee prior to project completion.
- **OJJDP-funded webinars.** The award recipient must comply with OJJDP's webinar guidelines, as described in the Core Performance Standards. Minimally, OJJDP training and technical assistance providers will submit information to OJJDP in advance of all events for the online calendar, record events, and provide the final files (which must be compliant with Section 508 of the Workforce Rehabilitation Act) to OJJDP or OJJDP's representative. For more information on Section 508 of the Workforce Rehabilitation Act, visit <https://www.section508.gov/>.
- **Training information sharing.** OJP will collect information from its program offices on OJP-funded training and technical assistance events. Award recipients must use OJJDP's standard electronic training request form, submit information to OJJDP on all training events (e.g., name of requester, description of request, dates of event) 30 days in advance of the event date, and report additional data, as OJJDP requires.

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

OJP Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department's priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term "high-poverty area" means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term "persistent poverty counties" means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

Application Review Information

Review Criteria

a. Merit Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Description of the Issue (10%) – evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (45%) – evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (25%) – evaluate the applicant's administrative and technical capacity to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for This Solicitation's Performance Measures (10%) – evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.

Budget (10%) – evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project

activities).

b. Other Review Criteria/Factors

Other important considerations for OJJDP include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet BMR will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet BMR prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet BMR.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the nonpublic segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and OJJDP recommendations, but also other factors as indicated in this section.
