

FEDERAL FUNDING OPPORTUNITIES

FOR JUSTICE AND PUBLIC SAFETY AGENCIES AND PARTNERS

The week of 03/06/23

INTRODUCTION

Purpose of Document:

This document provides information on current federal funding opportunities. It is intended that the resource will highlight key information to help jurisdictions make decisions about whether to pursue these funding opportunities. Please note that the solicitation or notice of funding that is linked serves as the official guidance on how to apply for the funding, required and allowable expenses, and deadlines. If a funding opportunity looks relevant to the work you are planning for, please read through each solicitation/notice of funding closely to respond to all requirements. Most of the Department of Justice funding opportunities require a two-step application submission process, each with its own deadline. All deadlines are noted in the descriptions.

Audience:

The grant programs listed in this document allow for a variety of eligible applicants, including state, local and tribal government entities and nonprofit organizations. Eligibility and target audience varies by program, so please read through the eligibility information. If your jurisdiction or organization is not eligible to submit the application, many programs allow and/or encourage partnerships through sub-grants and contracts with eligible applicants.

Grant Program Priorities:

Some grant programs will prioritize funding for certain types of jurisdictions or target audiences. This typically means that the federal funding agency will add points to the overall rating of the application or will flag the application for priority when making decisions on what to fund. If your application aligns with a grant program priority, it does not guarantee that it will be funded, but it should be addressed in the application.

For this resource, the grant programs that include priority language around supporting rural jurisdictions or underserved populations are indicated by language highlighted on the grant program description page. The priorities are defined below:

Underserved Community Priority

This priority supports [Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government](#):

- Consistent with this Executive Order, the term “underserved community” refers to a population sharing a particular characteristic, as well as a geographic community, that has been systematically denied a full opportunity to participate in aspects of economic, social, and civic life or whose members have been historically underserved, marginalized, and adversely affected by inequality. Such communities include, among others, Black people, Hispanics and Latino/a/e people, Native American and other Indigenous peoples of North America (including Alaska Natives, Eskimos, and Aleuts), Asian Americans, Native Hawaiians, and Pacific Islanders.
- In support of Executive Order 13985, the grant programs with this priority will:
 - » Give priority consideration to applications that include project(s) that will promote racial equity and the removal of barriers to access and opportunity for communities that have been historically underserved, marginalized, and adversely affected by inequality, when making award decisions.
- Generally, applicants are being asked to describe in their application how the proposed project(s) will promote racial equity and/or the removal of barriers to access and opportunity, and/or contribute to greater access to services, for communities that have been historically underserved, marginalized, and adversely affected by inequality.

Rural-Specific Category

This indicates if a grant program includes a category of funding restricted only to rural jurisdictions. Please note that each program typically provides definitions of a rural jurisdiction, and this may vary across programs, so please read through each solicitation/notice of funding carefully to determine if your jurisdiction or target audience is eligible. The specific rural category language is included in the grant program description if applicable.

Rural Priority

This indicates if a grant program included additional priority language indicating priority for funding rural jurisdictions. The specific rural priority language is included in the grant program description if applicable.
